YOUR TYPE

Your type is the role you have been asked to play in this lifetime. It represents the general purpose that your energy blueprint is designed to provide. Your type energetically interacts with the rest of humanity in a geometric way. At a high level, it defines whether you are here to do work, to guide and lead, to manifest or to reflect. There are 5 types in the human design system. **Realize that you can manifest successfully and create a life of peace and balance whatever your design, provided you live out your type and follow your strategy.**

[Chart Human Design Types](#)

Reflector

You are a Reflector. You are here to reflect the community and society around you. All of your nine centers are open and reflective of the energy around you. This will make your life feel inconsistent, full of energy and then not. Full of emotion and then not. You are here to be extremely wise about all of these centers. In addition your energy cycles are tied closely to the cycle of the moon. Not necessarily to the fullness but as the moon traverses through the 64 gates of the I'Ching you will feel energetic activations. You have a distinct energy pattern that reoccurs in a 28.25 day cycle. You might wish to consider a private reading at some point as it will greatly give you guidance and explanation of how your energy flows.

YOUR STRATEGY

For each of the 5 types in Human Design there is a corresponding strategy. This is all about geometry and interacting properly with the flow of the energy of the universe, you and other beings. It is by following your strategy that you can maximize the positive results and minimize the drawbacks. The universe is energetic and the flow of opportunity and interaction is influenced by type. Strategy is important in every day life, but especially important for major decisions such as changes in your personal relationships, career, or residence. It is also critical to follow your strategy with commitments to projects or any major investment of your time.

Simply wait (28 day cycle)

As a Reflector, you have such an open design that your energy is extremely influenced by those around you. You are an empath. Your energy follows the cycle of the moon and on some days may feel strong and powerful while on other days it is weak and vulnerable. Your challenge with responding to big commitments and changes in life, is to wait through your 28 day cycle. When making a decision, pay attention to your feelings and your response throughout your cycle. If the answer is a strong "yes" consistently through the cycle, then you know in your core it is right. If the answer changes from "yes" to "no" throughout the cycle, then it is probably not the right solution or right time for this in your life.

As a Reflector you may want to get a more in depth look at how your energy changes throughout the 28 days. You can do this through an in-depth Human Design reading and/or looking at your moon chart. The beauty of the Reflector is that you are a true measure of the health of your environment. Surround yourself with consistently loving and supportive energy and by living your Human Design type and strategy and you can do anything!

YOUR PROFILE

Your profile describes character traits to your personality. Are you social, investigative, experimental, a hermit, projective or a role model. You have two of these defining traits which will influence how all of your actions, expressions and interactions are done. Beyond your type, your profile is the second biggest force in influencing your design. Your profile is derived from two numbers called lines that come from the gates in your sun and your earth. Lines are a subset of the gates of the I'Ching where each gate is divided into 6 lines.

2/4 Hermit/Opportunist

The second line of your profile is a hermit. However, there is a projected social aspect to this part of your profile. So while there is a part of you that needs alone time, there is a part of this energy that projects out to other people and says "Hey this person needs to be called out of their hiding!" Therefore your second line cannot be a successful hermit. There is an important aspect to your need for alone time. It is only in this alone time, only when you are allowed to draw within that you can integrate the happenings around you. Whether this is to absorb and react to interpersonal dynamics or processing some new skill or information that you have learned, you need some down time for integrating this into your being. So take your alone time but accept some invitations too, as you are designed to have this balance of hermitting and going out.

The fourth line in your profile is a social networker with a need for foundation. The 4th line desires the next thing to be lined up before it is ready or willing to move forward. This foundation is based around house, spouse, close friends and career. If it is a job, then you will typically want the offer letter in hand before you resign from your current job. In relationship, you will want at least prospects for a replacement before moving on. 4th line people tend to get stuck in relationship for fear that the replacement won't happen. When faced with the prospect of moving, you are likely to have the next place all lined up before moving out of the current one. As a 4th line profile most of your opportunities for jobs, friends, or significant others will come through your social network. This is how the energy revolves around your design.

YOUR UNDEFINED CENTERS

Your open centers are unlimited in the way they can experience energy for that center. You do not have your own consistent energy for these centers but you can amplify these types of energy from around you. Through these centers you are empathetic to those around you. An undefined Solar Plexus Center can feel the happiness or sadness of another. The undefined Spleen Center can feel ill health. Through this experience of empathy and amplification you are designed to become extremely wise about these centers as you can experience all the shades of the energy coming through.

[Map of Centers](#)

Head

You have an undefined Head Center. Along with 7/8 of the population, you are unlimited in how you experience ideas and inspirations. You may lose your focus with your own ideas, especially when influenced by other people. For example, it could be a struggle to find something you really want when looking at a menu in a crowded restaurant, well it all looks good! Make sure the ideas and inspirations you embrace and work with are your own and feel right over a period of time. You may come under pressure to find the answer to questions. This can include anything from "what was the name of that actor?" to "what do I want to do with my life?" Make sure the questions you are answering are a priority for you and not someone else in your life. Are you still trying to answer other peoples' questions?

Ajna

You have an undefined Ajna and are unlimited in the way you can think about things. You easily look at problems from many angles. You may vary how you do your tasks and chores and are flexible in trying new ways of doing things. You may struggle with remembering details. This can happen even when you felt confident you would remember. You tend to feel uncertain when it comes to making decisions. At a restaurant you may change your mind often and then be disappointed with what you ordered when it shows up. You may struggle to focus in large groups or noisy situations. Your best strategy is to make lists or write things down that you will need to recall.

Throat

You have an undefined Throat Center. You are unlimited in the ways in which you express yourself. You can modulate your speech and voice to communicate with anyone in a way they will understand. However, at times in your life you may have struggled to feel heard or listened to. You may have developed elaborate strategies to be recognized so your words would be acknowledged. For example, when you do "get the floor" with your audience, you may resist giving it up for fear that you will fall back into being unheard. It is also possible that you have grown tired of not being heard and have fallen quiet. Your strategy around communication is to let your energy carry the message that you have a lot to say. It is through this quiet focus that you will be recognized to speak. Once you have been recognized by others, you will be heard.

G-Identity

You have an undefined G-Identity Center. You are unlimited in how you identify yourself and can relate with all kinds of people. You may struggle to "find yourself" simply because it's hard for you to define who you are. Your sense of self may be inconsistent and you may be constantly changing your view of who you are. If your world is impacted by events around you, it may take time to come back to center and feel comfortable. At times you may feel unduly influenced by others. At times, you may

question your lovability. A strategy for the open G-Identity is to spend time with loving people whom you honor, admire and can help you to align your identity with higher energies.

Heart-Will

You have an undefined Heart-Will Center. You are unlimited in the way you experience will power, but are inconsistent with this energy and may lack the ability to get things done by pushing through with your will. You can increase your will power by amplifying someone else's will power energy, but the better option is to succeed by using your Human Design type and strategy. This is also the center of the ego and you may occasionally suffer from feeling unworthy. You may struggle to value your contributions and charge a fair amount for your services. If you're overexerting your will power, the question to ask yourself is, "What am I trying to prove?" You are here to be truly wise about what's valuable and to show others that there are more effective ways to manifest than by pushing with will alone.

Solar Plexus

You have an undefined Solar Plexus Center. You can experience emotions in an unlimited fashion. These emotions are generally from people around you, because your own your emotions are steady. If you view yourself as an emotional person, take a look at the people around you as you may be picking up on their emotional waves. Your strategy is to be a screen and acknowledge the emotions you are experiencing, but don't be a sponge and soak them up. If the emotional energy becomes too much, take some alone time to rebalance yourself.

Root

You have an undefined Root Center. You are unlimited in experiencing adrenaline and root energy, but it is inconsistent. At times it may feel as if you are spinning your wheels trying to get things done. You may feel under pressure to complete your task list and struggle to break off your compulsion to work on the never ending list. Many people with hyperactivity and/or ADHD have undefined Root Centers. Your best strategy is to keep the energy around you peaceful and create structure around the tasks before you.

Sacral

You have an undefined Sacral Center. You can experience sacral energy in unlimited ways, but do not generate it on your own. You can utilize other people's sacral energy to get things done, but this is not sustainable. You need a strategy for working as you are not designed to survive the 9 to 5 work world. If you can break up your schedule so you can rest or nap in between it will help. Your best sleep strategy is to go to bed before you are actually tired. This will help dissipate external energy so you can sleep soundly.

Spleen

You have an undefined Spleen Center. You have an unlimited ability to understand intuition. You may experience time in unlimited and undefined ways. You may lose track of time, having 15 minute conversations that last 2 hours. It is likely that you struggle with being on time, either watching the clock like a hawk to ensure timeliness, being extremely early to everything or always being late. You may also be vulnerable to sudden rashes of fear, because this is the center for survival based activities driven by fear. An undefined spleen can be a great asset to a hands on energy worker, drawing on universal energy and amplifying it with your open spleen center. Your immune system has an inconsistent supply of energy and is more vulnerable. As a result, you are likely to be sensitive to everything happening in your body. Sometimes people with undefined spleens can be viewed as hypochondriacs, but in truth, you are just more sensitive to the inner workings of your body.

YOUR DEFINED CENTERS

Your defined centers are the shapes in the chart, the squares the triangles and the diamonds that are colored in. Through these defined centers you have access to your own consistent energy. Because the center is defined, you will experience the energy from each center with a familiar pattern. It may not always be the exact pattern as described, but the description is to give you a flavor of how that energy will come to expression.

[Map of Centers](#)

Reflectors do not have any defined centers.

YOUR DEFINED CHANNELS

Your defined channels have distinct characteristics in the way you act or react. Your defined channels will effect the flow of energy to and from the centers they connect with. As the energy flows through it, the expression of that channel's characteristics will be added to the overall expression.

Reflectors do not have any defined channels.

YOUR DEFINED GATES

Your defined gates are truly what give you definition. It is the sum of these that defines your centers and determines your type. It is all the individual expressions of each gate that make you who you really are. In this section you can look at each gate and its expression individually. Please remember two things: 1. That this is a high level description of the gate and it is just to give you a flavor of how you may express this energy. 2. That these gate attributes do not work in isolation so as they come together in your design the attributes may mutate or change into something greater or something less.

Energy distribution: Collective 31% Tribal 27 % Individual 42 %

At a high level there are three main types of energy: collective, tribal and individual. The expression of collective energy is ultimately to benefit the collective, or all of humanity. Tribal energy is focused on what is best for the tribe whether it's family, group, community, race or country. Individual energy is driven to benefit you and it does not really care about anyone else in the tribe or the collective. It is useful to see your energy distribution as you can see if you have a bias toward one type of energy. Most of us have a blend but some people have a concentration. If you have a percentage in one group higher than 55%, then you are going to have a bias. If that is individual, then you are going to care mostly about yourself. If the concentration is tribal, then your concern is for the tribe. And lastly, if it is collective, you will be focused on how you effect all of humanity.

Gate of Caring (# 27)	Gate of Leading (# 31)
Caring is nurturing energy and is the need to care and take care of one another. This caring is tribal and is directed toward family, group or team. It is about providing nourishment and protection to preserve the unit.	The Gate of Leading is the voice of the leader. The leadership is only truly successful when properly supported by its complementary gate 7, The Role of the Self.
Gate of The Game Player (# 28)	Gate of Contraction (# 41)
The Game Player energy is the struggle for the meaning of life, the struggle to find your divine connection. Through the struggle you become incredibly wise about the meaning of life. The shadow side is the fear that life has no meaning.	The Gate of Contraction is the energy of contracting or pulling back. It is an emotional energy of regrouping in preparation for the next expansion.

Gate of Continuity (# 32)	Gate of Principles (# 49)
Continuity is an instinctive gate to adapt to change and carry on. The drive is to follow socially embraced behavior. Over time, social behavior changes and when that behavior becomes the norm, you are able to adapt quickly.	The Gate of Principles is the energy of principles and revolution. If the activity or behavior is not within the boundaries of the perceived principles, then this energy will push for revolution and change until it falls within the range of the principle.
Gate of Extremes (# 15)	Gate of Behavior of the Self (# 10)
The Gate of Extremes is energy that expresses itself through extreme rhythms. Whether it be your personal cycle with respect to times you eat, get up and go to sleep or other patterns, the gate of extremes will demand a change from a repetitive cycle after a while. This is also the energy of the love of humanity, the concern for fellow humans and the drive to bring other humans into the flow of life.	The Gate of the Behavior of Self carries energy about understanding behavior within the norms of your human society. How it is expressed may take on flavors of complete acceptance of norms, challenging norms when appropriate or complete defiance. Your expression will remain consistent within your theme or style of expression. This is the energy of self-love. This is also the consistent energy to love others.
Gate of Rationalizing (# 24)	Gate of Saying Yes (# 29)
The Gate of Rationalizing is the energy to ponder over and over in thought until that thought can be brought forward in rational terms or in a rational way.	This energy is the drive to say "Yes". It may lead to over commitment, but the energy includes the perseverance to push through where others quit.
Gate of Gatherer (# 45)	Gate of Caution (# 12)
The Gatherer energy is about having control of things and allowing others to use those things for a price. Whether it is physical, emotional, or mental this energy seeks reward for allowing others to use what is yours.	The Gate of Caution is the energy of speaking from heart in an individual way. The energy that says, "I love you". It can express itself through shyness as it is vulnerable.
Gate of Growth (# 42)	Gate of Assimilation (# 23)
Growth is the energy of maximizing the potential then bringing it to closure. Closure or completion of growth is necessary to allow the next step to be taken.	Assimilation is the energy of bringing the knowing of something forward and integrating it into expression.

Gate of Spirit (# 55)	Gate of Aloneness (# 40)
Spirit is emotional energy seeking to bring abundance. Linked to spirit it can be abundance of spirit, but the abundance can come in many forms. This energy may feel stuck at times.	Aloneness energy is part of the channel of community, yet this is the lonely side. This is the energy of being separate from the group or the family.
Gate of Self-Expression (# 1)	Gate of Confusion (# 64)
Self-Expression is the gate of the creative self. This energy wants to create in a big way and with a unique style. This creation energy is determined to draw attention to oneself.	Confusion energy is the abstract. "We have all these little pieces of the puzzle, how do they go together?" You have the ability to identify all the pieces, but may struggle to put it all together. In looking at all the pieces it can be a bit confusing or dizzying.

YOUR INCARNATION CROSS

Your incarnation cross made up of the four key gates based on the alignment of the sun and earth in your Human Design. Your incarnation cross gives definition and foundation to your overall energy design and is a cornerstone in your life purpose. Like a snowflake there are many underlying factors within your design that impact exactly how you carry your cross but this gives you another flavor of just how deep Human Design goes.

Of course in order to carry out your incarnation cross you must live your design. This means living consistently with your defined energy and gathering the wisdom through your undefined areas. Living your passions and dreams and not living the influences around you unless they resonate with your soul.

The Right Angle Cross of the Unexpected 2

Cross Gates: 31 41 27 28

You carry the energy that is likely to land you in a place of leadership rather unexpectedly. It will seem to come from nowhere - suddenly you are in the limelight, or at least holding things up. Be aware that you have this energy and at some point will be thrust into a lead role. Get ready to take on the responsibility for this is why you are here.

What does the Right Angle mean?

You have a right angle cross of incarnation. Your destiny in this life is your own process and in that sense you are self absorbed. However you can't live life in a vacuum and so throughout this life you are creating karma for good or not so good with all the others you bump into.
